Career Summary

Feb 2020 – Present

Twende Carpool Ltd

Lead UX/UI designer

Outline

I am part of the development team at Twende Carpool developing internal applications, building and optimizing style guides as well as designing and implementing new design patterns on web and mobile.

Key Responsibilities

- Researching and analysing competitive landscape.
- Working with front-end developers to ensure successful implementation of all designs
- Working with and communicating with product owners daily, gathering clear business requirements and delivering designs on time.
- Developing and maintaining design wireframes (basic mock-ups of applications) and specifications.
- Creating prototypes for motion studies, overseeing production specs and facilitating design reviews with stakeholders.
- Project management: breaking down, creating and assigning task using project management software such as Asana

June 2020 – July 2020

Chanuka Fintech

Contract UX/UI Designer

Outline

Chanuka Fintech seeks to improve and automate the delivery and use of financial services.I was part of designing and implementing Jilipe application, web and mobile, and Chanuka na Nguo, a E-commerce web application.

Key Responsibilities

- Redesigning an application, Jilipe, a commission-sales based referral platform.
- Worked hands-on with the development team daily, assisting with HTML/CSS to ensure accurate design implementation.
- Designed their eCommerce site, Chanuka na Nguo, that included the dashboard, homepage, about page, pricing and shopping pages, onboarding experience.
